

Dr. Strand has implemented the latest in Endodontic technology and procedures. By using the GentleWave system our patients are seeing even more efficient root canals, with faster healing times.

Benefits Include:

- Better Cleaning – Removes virtually all infected tissue and supports fast healing.<sup>1,3</sup>
- Less Invasive – using a single-use sterilized Procedure Instrument to deliver broad spectrum acoustic energy and powerful vortices of treatment fluids throughout the canal system.
- Fewer Visits – can usually be completed in just one visit. In addition, because Multisonic Ultracleaning™ technology is so effective at cleaning and disinfecting the root canal system, you will be at far less risk for reinfection.

By accepting this treatment you are understanding that this is NOT billable or covered by insurances. It is an additional \$85 and **has already been worked into your estimate given**. If you choose not to have this please make sure to mark no and also feel free to ask any questions about the procedure.

- YES, please use the latest technology and I understand the billing
- No, I am opting out of the GentleWave procedure
